

*Hello everyone,*

*As some of you may already know, I was asked by the Chinook Emergency Response Society to coordinate the food and refreshment distributions for this coming fire season. We are looking for volunteers to put a team in different areas of our region to help in this great work.*

*Some of us are not able to fight those fires directly. However, we can sure make an impact by supporting the volunteers who are fighting the fires. I am by no means an expert, so I will be asking for lots of input and ideas on how to best do the tasks. If you are able to help, please call me at the number below. It is my cellular phone, so please feel to text me as well or email me at [gpgc777@gmail.com](mailto:gpgc777@gmail.com)*

*Thank you,*
